PROFESSIONAL SUMMARY

Backend Software Engineer with 3+ years of experience building scalable APIs, serverless middleware, authentication flows, payment workflows, and cloud-native systems using Node.js, TypeScript, Express.js, AWS, Azure, PostgreSQL, MongoDB, and Redis. Experienced in event-driven systems, API integrations, SSO, order orchestration, database design, and production issue resolution. Currently building AI-powered backend systems using Agentic AI, LLM integration, RAG, embeddings, MCP, Docker, and CI/CD.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL

Backend: Node.js, Express.js, GraphQL, REST APIs, Serverless, API Design, Webhooks, JWT, SSO, RBAC

Cloud: AWS Lambda, S3, Cognito, SES, Azure Functions, Cosmos DB, Service Bus, Blob Storage, APIM

Databases / Cache: MongoDB, PostgreSQL, Redis, Mongoose, Sequelize, Schema Design, Query Optimization

AI / LLM: Agentic AI, LLM Integration, Prompt Engineering, RAG, Embeddings, Vector Search, Tool Calling, MCP

DevOps / Concepts: Git, GitHub, Docker, GitHub Actions, Jenkins, CI/CD, API Testing, Microservices, Distributed Systems, Event-Driven Architecture, Queues, Caching, Rate Limiting, Logging, Monitoring, Retry, DLQ, Idempotency

PROFESSIONAL EXPERIENCE

Brainvire Infotech Pvt. Ltd.

April 2023 – December 2024

Software Engineer

Ahmedabad, Gujarat

- Developed backend services and cloud-integrated workflows using Node.js, serverless architecture, Azure Functions, Cosmos DB, Service Bus, Blob Storage, and APIM.
- Engineered a scalable 3D image upload workflow using AWS S3 pre-signed URLs, improving security by removing direct backend file handling.
- Designed and launched a serverless middleware solution for order synchronization, reducing manual order-sync effort by 20% and improving data reliability across connected systems.
- Implemented secure SSO across application modules, reducing login-related support tickets by 15%, and handled third-party API integrations, validation, error handling, and production issues.

Samcom Technobrains Pvt. Ltd.

December 2022 – February 2023

Software Developer

Ahmedabad, Gujarat

- Engineered and maintained scalable backend APIs using Node.js and Express.js, ensuring high performance, maintainability, and reliable integration with mobile applications.
- Resolved production issues by strengthening request validation, optimizing SQL queries, fixing backend defects, and executing regression testing for stable releases.

Brained

October 2021 – November 2022

Associate Full Stack Developer

Mumbai, Maharashtra

- Engineered more than 15 full-stack modules using Vue.js, Node.js, Express.js, PostgreSQL, and MongoDB, streamlining core business workflows and reducing manual operations.
- Integrated Razorpay and PayUMoney payment gateways, enabling secure end-to-end payment processing and improving checkout reliability.
- Built over 20 REST APIs with authentication, request validation, RBAC, indexing, and optimized PostgreSQL/MongoDB schemas for scalable frontend-backend communication.

INDEPENDENT PROJECTS & UPSKILLING

AgentHire – Agentic AI Resume Intelligence Platform

Jan 2026 – Present

- Engineered an AI-powered backend platform that analyzes resumes against job descriptions to generate ATS scores, identify skill gaps, extract missing keywords, and recommend improvements.
- Built a modular AI orchestration layer with specialized agents for resume parsing, job description analysis, resume matching, prompt workflows, and structured AI processing.
- Implemented RAG using document parsing, chunking, embeddings, vector search, and Redis caching to provide context-aware analysis while reducing repeated LLM calls.
- Designed REST APIs for authentication, resume management, job description processing, AI workflow execution, conversation history, and MCP-compatible tool access.
- Containerized the application using Docker and configured GitHub Actions for automated linting, testing, and continuous integration.

EDUCATION

Faculty of Engineering, Pacific University

August 2014 – August 2018

Bachelor of Technology in Mechanical Engineering

Udaipur, Rajasthan
